Education

University of Oklahoma

Bachelor of Science: Mechanical Engineering | GPA: 3.3

Relevant Coursework: Heat Transfer, Fluid Mechanics, Solid Mechanics, Physical Mechanics

Norman, OK

May 2027 (Expected)

Moore Norman Technology Center

Engineering Computer Aided Design and Drafting | GPA: 4.0

Web Design, Web Scripting Foundations | GPA: 4.0

Norman, OK

May 2022

May 2021

Experience

Solar Power & Pump Supply

Engineering Intern

Elk City, OK

May 2026 – Aug 2026

- Tested solar-powered water pumps across varying electrical inputs and simulated water depths, measuring AC/DC voltage and current and developing pump performance curves to characterize system performance
- Created 3D models, engineering drawings, and BOMs for mechanical systems including pumps, motors, couplings, well components, enclosures, and solar mounting equipment using SolidWorks
- Performed finite element analysis (FEA) on an aluminum mounting rail to evaluate structural performance

Handshake AI Fellowship

AI Trainer – AI Model Evaluation & Safety Expert

Remote

Oct 2025 – present

- Developed and evaluated domain-specific prompts to assess the performance of large language models (LLMs) in AI safety and model behavior
- Analyzed LLM outputs for accuracy, reasoning quality, clarity, instruction adherence, and safety
- Contributed to improving AI understanding of complex safety-critical, multimodal, and structured-output tasks through expert review and feedback
- Conducted independent research to support prompt development and evaluation tasks

University of Oklahoma

Private Tutor

Norman, OK

Sept 2022 – Oct 2025

- Delivered 10+ hours of tutoring for 3-5 students weekly in courses such as Ordinary Differential Equations, Biotransport, and Solid Mechanics
- Developed tailored study plans to accommodate individual learning styles
- Achieved strong academic outcomes, with 94% of students earning an A in supported courses

Project

Medical Device Make-A-Thon

Feb 2025

- Conceptualized and designed swimming aid fin attachment for lower-limb prosthetics during 48-hour national prototyping and design competition
- Pitched final design prototype and proposed clinical applications to a panel of industry professionals

Skills & Certifications

Technical: SolidWorks, Autodesk Inventor, AutoCAD, ANSYS Workbench, Revit, Tinkercad

Language: MATLAB, HTML5, CSS3, Python, LaTeX, C

Certifications: Six Sigma Yellow Belt, OSHA 10-Hour General Industry, SolidWorks 3DSWYMER Associate
